

Palm Beach Virtual School Accelerated Options for 5th Graders

Virtual Learning Acceleration Options in Public Education

Provides for Academically Challenging Curriculum to Enhance Learning (ACCEL) options to provide eligible public school students educational options that provide academically challenging curriculum or accelerated instruction.

For the past two years high achieving 5th grade students (level 5 and 4) at District elementary schools have been successful in completing the following 6th grade courses as a part of their regular school day.

M/J Mathematics 1 (6th Grade Math)

M/J Language Arts 1 (6th Grade Language Arts)

M/J Science 1 (6th Grade Science)

The Process To Enroll Students:

1. Parent requests the course on www.FLVS.net
2. School Counselor approves the course, choosing Palm Beach Virtual
3. DP creates a filler class on the A10
4. School notifies Palm Beach Virtual of student names for reconciliation
5. Our 6th Grade Teacher works with the students

Benefits of online learning:

- ☉ Empowers Students: They can work at their own pace
- ☉ Content is engaging
- ☉ Students have direct contact with the teacher for enrichment of content
- ☉ Content includes real world application of skills acquired in each module
- ☉ Students feel rewarded for quality work and enjoy working above their current grade
- ☉ Virtual teacher provides specific feedback for each lesson
- ☉ Students are able to master content by reworking in areas of difficulty with specific feedback from their virtual teacher
